Annual Tax Exemption Budget

Part 1

Introduction

Statutory requirements

The Louisiana Department of Revenue is required by Section 1517 of Title 47 of the Louisiana Revised Statutes to prepare an annual tax exemption budget. This report must include the following information pertaining to the state's tax exemptions:

1. Listing of each exclusion, exemption, credit, refund, preferential tax rate, or deferred tax liability
2. Statutory citation
3. Purpose
4. Estimate of the revenues lost for the preceding three years
5. Estimate of the revenues lost for the current and ensuing fiscal year
6. Estimated cost of administering and implementing each exemption for the five years reflected in this report.

The Department is able to provide all of the required information except for the costs of administering and implementing each tax exemption. We do not have the data available to estimate these costs with any degree of accuracy.

In addition to the above data, this report must also contain the following information as it applies to specific tax exemptions:

- A determination of the tax exemption's effectiveness in fulfilling the purpose for which it was enacted; i.e., did the intended recipient benefit and, if not, who did benefit;
- An assessment as to whether the tax exemption is the most fiscally effective means of achieving its purpose;
- An evaluation as to whether unintended or inadvertent effects, benefits, or harm

was caused by the tax exemption, including whether the tax exemption conflicts with other state statutes; and

- An evaluation as to whether the tax exemption simplifies or complicates the state tax statutes.

Contents of the Report

In addition to the Introduction (Part 1), the report consists of an Overview (Part 2), a Five-Year Estimate of Revenue Loss (Part 3), and a Listing of Exemptions (Part 4).

Part 2, the Overview, provides a general discussion of the tax exemption report and additional information on tax collections by the Department of Revenue.

Part 3, the Five-Year Estimate of Revenue Loss, is a listing of each exemption and the fiscal losses for the preceding three years, the current year, and the ensuing year as required. Preceding the listing is a summary of all taxes arranged in order of the magnitude of the revenue loss.

Part 4, the Listing of Exemptions, is arranged alphabetically by major tax type and provides the following general information on each tax exemption: the statutory citation, legislative origin, effective date, purpose, and administration. Each section begins with an index listing individual tax exemptions, the statutory citation, and page number. The index is followed by a general discussion of the tax, the tax base, rate of imposition, and any recent significant changes to its imposition or administration.

Part 2. Overview

Introduction

The state's tax laws authorize a large number of exemptions, exclusions, deductions, credits, preferential tax treatments, and tax deferrals that substantially reduce the tax collection revenues. These special provisions are designed to encourage certain activities or to limit the tax burden on specific individuals or endeavors. The purpose of this report is to provide a comprehensive listing of all tax exemptions and to quantify the fiscal cost of the various tax exemptions, exclusions, deductions, and credits.

What is a tax exemption?

For the purpose of this report, the term **exemption** is used to describe all exemptions, exclusions, deductions, credits, preferential tax treatments, and tax deferrals. Tax exemptions are tax dollars that are not collected and result in a loss of state tax revenues available for appropriation. In this sense, the fiscal effect of tax exemptions is the same as a direct fund expenditure. This report includes all tax exemptions provided for by state statutes for taxes administered by the Department of Revenue.

State exemptions versus total exemptions

There are several statutory tax exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions are separately grouped at the end of each tax section.

Measuring the tax exemptions

In order to accurately interpret the data contained in this report, the methods of calculation and assumptions should be noted.

All revenue loss estimates in this report are based on information gathered from various sources. The most reliable information was obtained from the actual tax return data. Unfortunately, this information was not always available and other sources were used. This was the case for many of the sales tax exemptions.

In estimating the fiscal effect for each exemption, the following assumptions were made:

- Each tax exemption revenue loss was considered separately and it was assumed that all other elements of the tax system remained unchanged.
- The calculations of the revenue loss for a specific tax exemption did not consider any side effects that could result from the removal of any other exemption in another tax.
- Each estimate was made in isolation. If two or more items were eliminated within the same tax, each adjustment was computed independently.
- All estimates are only as good as the assumptions used to complete the necessary calculations. If little data was available, the estimates included numerous assumptions.

Terminology

For the purposes of this report the following terminology is used to describe the fiscal effects:

- **Negligible** is used if the tax exemption was estimated at \$10,000 or less;
- **No data** is used to indicate that data was not available from any source to estimate the past revenue loss;
- **Unable to anticipate** is used to indicate that data was not available from any source to predict the future revenue loss; and,

Part 2. Overview

- **NRR** is used to indicate that there is no reporting requirement for the data. This was generally the case for income tax and corporation franchise tax exemptions. Many of the corporations exempted are not required to file tax returns. For this reason, we do not have data available to calculate the fiscal effect for these exemptions.

Sales Tax – A special situation

Estimation of the fiscal effect for sales tax exemptions was complicated by two events. The first was the suspension of exemptions beginning in 1986. The second was the creation of the Louisiana Recovery District in 1988 and its expiration on September 30, 1996.

In 1986, the effectiveness of the exemptions was temporarily suspended for one year under a House Concurrent Resolution resulting in the taxation of sales, services, and rentals that had previously been nontaxable, including food and utilities. The suspended exemptions were taxed at the rate of one percent. This suspension has been continued through a series of Resolutions and Acts at various rates of suspension. The current suspension of exemptions was passed in the 1998 Regular Legislative Session to extend the suspension through June 30, 2000 at the suspended rate of three percent

Until the suspension of the exemptions began in 1986, the primary method of extending any tax benefits to taxpayers was through the exemption statutes under R.S. 47:305. In addition, the definitions under R.S. 47:301 contain exclusions that are not affected by the suspension of exemptions. In order to extend tax relief to taxpayers, the Louisiana Legislature began enacting exclusions from the tax under the definitions in R.S. 47:301, rather than the exemptions under R.S. 47:305. Some of the exclusions replaced existing exemptions that were taxable under the suspension of exemptions. This action resulted in two statutes affecting the same subject. In 1998,

the Louisiana Legislature repealed most of these exemptions leaving only the exclusion as the statutory authority.

In 1988, the Louisiana Recovery District was created by the Louisiana Legislature. The governing body of this district issued revenue bonds backed by a one percent sales tax levy. In accordance with the requirements set by the Louisiana Legislature, the revenue bonds were issued and one percent of the general sales tax levy (R.S.47:321) was repealed and replaced with a one percent levy by the Recovery District. This resulted in a three percent general sales tax levy and a one percent Recovery District tax. Under constitutional provisions, a tax and its base that is used to pay off revenue bonds can not be modified by the Louisiana Legislature. Any changes by the Louisiana Legislature in the tax base of the general sales tax levy did not affect the Recovery District levy. Therefore, the state had two tax bases for sales tax.

In 1993, the Recovery District suspended the exemptions from the Recovery District tax. In addition, the Louisiana Legislature continued the suspension of the exemptions from the three percent general sales tax. From July 1993 through the expiration date of the Louisiana Recovery District (September 30, 1996), exemptions from both the general sales tax and the Louisiana Recovery District tax were fully suspended.

The Louisiana Recovery District and its sales tax levy were required to expire when all the revenue bonds issued by the Recovery District were repaid. In 1996, the Louisiana Recovery District repaid the bonds and on September 30, 1996 the Recovery District expired. The one percent sales tax levy of the Recovery District also expired on September 30, 1996 and was immediately replaced with a one percent general sales tax levy under R.S. 47:321 (effective October 1, 1996). At this time, the four percent state sales tax is under the same set of exclusions and exemptions.

Part 2. Overview

For fiscal years 1995-96 and 1996-97, the exemptions were suspended at the rate of four percent (4%). For fiscal years 1997-98, 1998-99, and 1999-2000, the exemptions are suspended at the rate of three percent.

There are some special words or terms used in the sales tax section. These terms and the meaning of these terms are as follows:

- “Suspended” is used to indicate that a particular exemption is being fully taxed because of the suspension of the exemption; hence no fiscal loss. This term is used for the fiscal impacts in fiscal years 1995-96 and 1996-97.
- “See Number (N)” indicates that the fiscal impact for that exemption is included with the fiscal impact of the referenced exclusion/exemption. This will apply to those exemptions that have been superseded by an exclusion or grouped with a like exclusion/exemption.

Other Credits - Corporation Income and Franchise Taxes

Several of the corporation income tax and franchise tax credits are combined on one line on the tax return. For this reason, we are unable to calculate the individual losses for these credits, but we are able to determine the total revenue loss. We have grouped these credits together under the heading **Other Credits** and the total revenue loss is shown on the table.

Tax collections versus tax exemptions

The largest fiscal losses due to tax exemptions stem from five major taxes: sales tax; income tax, which includes individual and corporation; severance taxes; inheritance tax; and corporation franchise taxes. The bar graph on page 6 compares the revenue loss from these tax exemptions with the tax collections for FY 1998-99. The comparison includes only the state tax exemptions; exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements are omitted.

In theory, the actual tax collections plus the tax exemption revenue losses should equal the total potential tax collections. The tax exemption revenue losses were divided by the total potential collections to arrive at the percentage of tax loss.

Top tax revenue losses

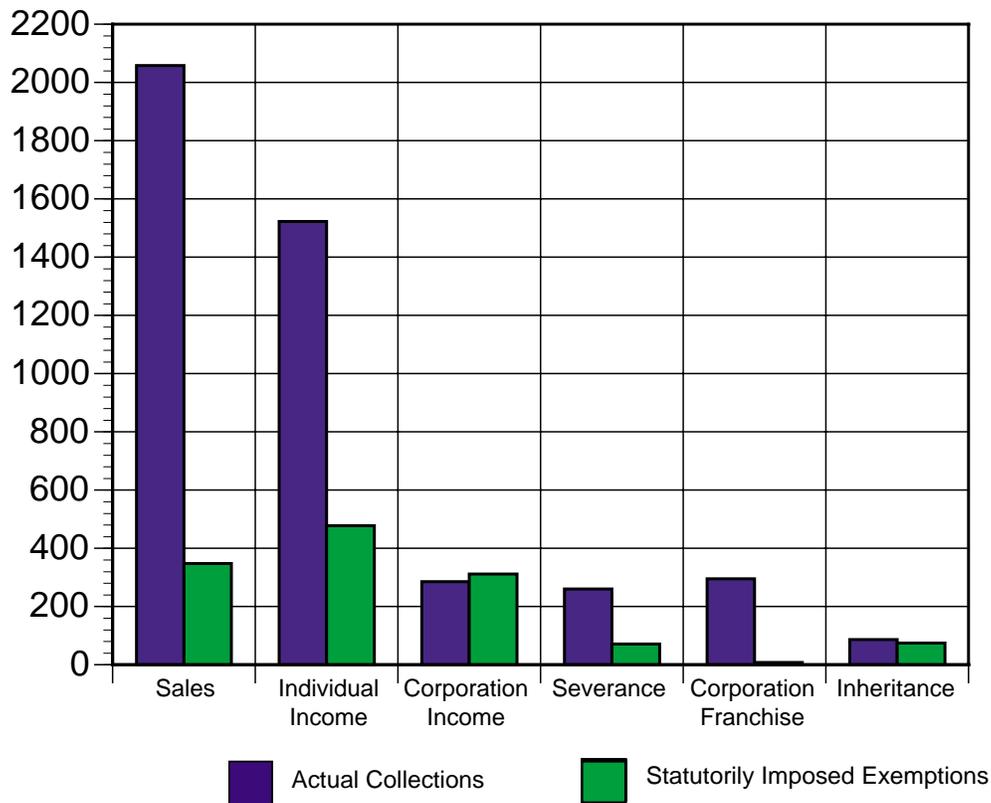

Sales, individual income, and corporation income taxes are the taxes with the largest fiscal losses due to statutory exemptions. Analyses of the various exemption categories for these taxes for FY 1998-99 can be found on pages 6 through 9. In categorizing the various exemptions, only state tax exemptions were included. Exemptions that are prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements were not considered.

Comparison of major tax exemptions

Comparisons of the major tax exemptions for the sales, individual income, and corporation income taxes with the exemptions allowed in southeastern states can be found on pages 10 through 12. In categorizing the major exemptions, statutory and constitutionally protected exemptions were considered.

⁷The estimated revenue loss for the inventory tax credit is shown on the corporation income tax table and includes the total revenue loss for individual income tax and corporation income and franchise taxes.

⁸The credits classified as "other credits" for franchise tax can be applied against either the corporation income tax or corporation franchise tax. For FYE 6-97 through FYE 6-99, all "other credits" were taken against corporation income tax. Therefore, the revenue loss for corporation franchise tax was zero. It was assumed for FYE 6-99 and FYE 6-01 that "other credits" would be applied against corporation income taxes.

Corporation Franchise Tax

Introduction

The Louisiana corporation franchise tax was enacted in 1932. The tax was imposed on every domestic corporation and every foreign corporation authorized or doing business in the state, or using any part of its capital, plant, or any other property in the state. As originally enacted, the tax levied was due and payable for the privilege of carrying on or doing business, exercising of its charter or the continuance of its charter within the state.

An initial tax return covering the period beginning with the date the corporation first becomes liable for filing a return and ending with the close of the accounting period, must be filed on or before the fifteenth day of the third month after the corporation first becomes liable. Thereafter, an annual return is due by the fifteenth day of the third month after the month the tax is due. The tax is due on the first day of the calendar year or the taxpayer's fiscal year.

The law has been amended many times since 1932. However, an amendment in 1970 to replace the *privilege of doing business* language in the original act with the statement that the *tax levied is due and payable on any one or all of the incidents referred to in the law* was one of the more important amendments.

Tax Base

Capital stock, surplus, undivided profits, and borrowed capital

Tax Rate

The tax is currently assessed on the taxable base at the rate of \$1.50 per \$1,000 on the first \$300,000 and \$3.00 per \$1,000 over \$300,000. The tax is based on the larger of the assessed value of all real and personal property in the state *or* the amount of issued and outstanding capital stock, surplus, undi-

vided profits and borrowed capital attributable to Louisiana.

Types of Tax Exemptions

Corporation franchise tax exemptions are in the form of exemptions/exclusions, deductions, and credits. Exemptions/exclusions generally refer to organizations or corporations that are statutorily exempt from the imposition of the corporation franchise tax due to the nature of their operation. Deductions are generally defined as a reduction to the taxable base. Credits are generally defined as a reduction to the amount of tax due. All tax exemptions related to the corporation franchise tax are listed in this report.

Gift Tax

Introduction

The Louisiana gift tax law was enacted in 1940 to complement the inheritance tax law. With minor exceptions, it was patterned after the federal gift tax law.

The gift tax is imposed on donations between living persons, real or disguised, and transfers for an inadequate consideration in money's worth. It is irrelevant whether the transfer is in trust or otherwise, or whether the property is movable or immovable, corporeal or incorporeal.

Hazardous Waste Disposal Tax Exemption

Hazardous Waste Disposal Tax

Introduction

In 1984, Act 8 of the First Extraordinary Session, levied a one-time tax on the hazardous waste content of the land. The tax was at the rate of \$2 per ton of waste disposed or stored in the land during 1981, 1982, 1983, and the first six months of 1984. This tax was administered by the Department of Environmental Quality, but collected by the Department of Revenue.

Also, by this same Act, the hazardous waste disposal tax was levied on the disposal of hazardous waste in Louisiana and on certain storage of wastes. The disposal tax rates were set at \$5 per dry-weight ton of waste disposed at the same site where produced or generated and \$10 per dry-weight ton of waste disposed or stored at a site other than where produced or generated. The tax was deemed collectible from the generator of the hazardous waste, if the generator disposed of his own hazardous waste, or from the disposer who must collect the tax from the generator of the waste at the time that the disposer received the waste. All generators and disposers must be registered with the Louisiana Department of Environmental Quality.

In 1988, Act 655 increased the rates to \$10 per dry-weight ton of hazardous waste disposed on site and \$20 per dry-weight ton of hazardous waste disposed at another site. This act further provided that the rates would increase \$1 per year until 1998. Additional provisions of the 1988 Act were the imposition of a tax of \$25 per dry-weight ton of extremely hazardous waste disposed in Louisiana and for the taxation of waste imported into Louisiana for disposal or storage.

The tax rates were again increased in 1990 by the passage of Act 391. This legislation changed the rates from \$10, \$20, and \$25 per dry-weight ton to \$30, \$60, and \$100, respectively. An additional provision allowed a credit of 0.5 percent of the tax due for collecting and remitting the tax timely. A tax on the transpor-

tation of hazardous and extremely hazardous wastes was also levied at the rate of \$25 per gross-weight ton of hazardous or extremely hazardous wastes transported in Louisiana for disposal or storage in Louisiana.

During the 1992 Regular Legislative Session, Act 526 was enacted which reduced the tax on the disposal of waste at a site other than where produced from \$60 per dry-weight ton to \$40 per dry-weight ton. This legislation also repealed the tax on transporting hazardous or extremely hazardous waste effective July 1, 1992.

Corporation Income Tax

Introduction

The Louisiana corporation income tax was authorized by the 1921 state constitution. The first tax was levied in 1934 at the rate of four percent of corporate earnings exceeding \$3,000. In 1977, Louisiana raised the income tax rate from a flat rate of four percent to a five-tier tax rate schedule that ranged from four percent of the first \$25,000 of taxable income to a maximum of eight percent of the taxable income exceeding \$200,000.

Like many other states that impose a corporate income tax, Louisiana closely follows the federal system. That is, the state employs the federal definition of income and deductions with certain modifications. Act 16 of the First Extraordinary Session of 1986 enacted R.S. 47:287.2 through 47:287.785 relative to corporation income tax and provided for the conformance of this tax to the federal tax system.

For multistate corporations, Louisiana net income is generally determined through formula apportionment. Under the formula apportionment method, total net income is generally apportioned to Louisiana based on the average of three factors: property, revenue, and wages. Louisiana allows a deduction for federal income tax in computing taxable income.

Domestic corporations organized under the laws of Louisiana, unless specifically exempted, must file an income tax return each year. Foreign corporations, organized under the laws of other states, who derive income from Louisiana sources, regardless of whether or not they have net income, must file an income tax return unless specifically exempted.

An income tax return must be filed on or before the fifteenth day of the fourth month following the close of an accounting period.

Type of Tax Exemptions

Corporation income tax exemptions are in the form of exemptions/exclusions, deductions, and credits. An exemption/exclusion generally means that a corporation is statutorily exempt from the imposition of the corporate income tax because of the nature of the corporation's business or a specific item of income that is not taxed. Deductions are generally defined as a reduction in net income to arrive at taxable income. Credits are generally defined as a reduction to the amount of tax due. All exemptions related to corporation income tax are contained in this report.

The federal income tax deduction, although a statutory deduction, is also required by the state constitution. Repeal of this deduction requires a vote of the people. For this reason, this deduction has been separated from the others and appears at the end of this section.

Individual Income Tax

Introduction

Louisiana's personal income tax was first imposed in 1934. The tax is assessed on a resident individual's income derived from all sources and a nonresident individual's income derived from Louisiana sources. Resident individuals are allowed a credit for income tax paid to other states on income that is also taxed by Louisiana.

The tax rates and income brackets have not changed since 1934. In 1974, the state constitution was amended to provide for strict restrictions that prohibit most changes to the tax rates and income brackets.

Like other states that impose a personal income tax, Louisiana closely follows the federal system utilizing the federal definition of income and deductions with certain modifications. Louisiana tax-table income is a modified federal adjusted gross income less federal income taxes paid and federal excess itemized deductions.

The income tax base is partially diminished by a combined personal exemption/standard deduction of \$4,500 for single filers and married taxpayers filing separately or \$9,000 for married taxpayers filing jointly and head-of-household filers. Additional \$1,000 deductions are given for each dependent and each taxpayer who is blind or 65 years of age or older.

Any resident, nonresident, or part-year resident required to file a tax return must do so by the fifteenth day of the fifth month after the close of their taxable year.

Tax Base

The tax base is comprised of federal adjusted gross income less federal excess itemized deductions and federal income tax with adjustments for other modifications to federal adjusted gross income.

Tax Rate

Tax tables are used to determine tax liability using rates as follows:

Married couple filing joint return or qualifying widow:

2% on the first \$20,000;
4% on the next \$80,000; and,
6% on the taxable income above \$100,000

Single, head of household, and married filing separately:

2% on the first \$10,000;
4% on the next \$40,000; and,
6% on the taxable income above \$50,000

Type of Tax Exemptions

Individual income tax exemptions are in the form of exemptions/exclusions, deductions, and credits. Exemptions/exclusions generally mean a specific item of income that is not included in taxable income. Deductions are generally defined as a reduction in net income to arrive at taxable income. Credits are generally defined as a reduction to the amount of tax due. All exemptions related to individual income tax are contained in this report.

The federal income tax deduction, although a statutory deduction, is also required by the state constitution. Repeal of this deduction requires a vote of the people. For this reason, this deduction has been separated from the other exemptions and appears at the end of this section.

Significant Changes Fiscal Year 1999-2000

Act 203 (SB261) amends R.S. 47:101(B)(7) to expand the innocent spouse provisions and make relief easier to obtain. This Act eliminates existing understatement thresholds and only requires that the innocent spouse prove that the understatement of the tax was attributable to an "erroneous," as opposed to a "grossly erroneous" item of the other spouse. A method is also provided to apportion tax relief based on the tax attributable to the portion of the understatement of which the innocent spouse was not aware. Taxpayers are allowed two years from the date that collection activities began to make the election to qualify as an innocent spouse, but under certain conditions the secretary is allowed discretionary authority to grant relief when the taxpayer fails to make the election within the prescribed period. Effective August 15, 1999.

Act 205 (SB264) enacts R.S. 47:1601(D) to provide for the suspension of the accrual of interest on certain individual income tax liabilities when the Department fails to notify a taxpayer of a liability with a certain time period. Under the Act, if an individual income taxpayer files a timely tax return and the secretary does not notify the taxpayer within 18 months after the tax return's due date or date of filing, whichever is later, the interest is suspended from the period beginning 18 months after the tax return's due date and does not begin again until 21 days after the secretary's notice to the taxpayer. The suspension does not apply to taxpayers that fail to notify the secretary of adjustments to their federal income tax within 60 days after the adjustments have been made. The intent of the Act is to protect individual income taxpayers from accruing large interest liabilities when the Department does not timely issue a notice of additional tax due. Effective June 11, 1999.

Act 711 (HB 519) enacts R.S. 47:299.2(1)(d) and 299.11(8) to add municipalities and parishes, except the city of New Orleans and the parish of Orleans, to the claimant agencies that may request the offset of state individual tax refunds owed to persons with legally collectible debts. Effective August 15, 1999.

Act 195 (HB 2039) enacts R.S. 47:120.61 to provide for the donation by an individual of all or any portion of their individual income tax refund to the Louisiana Breast Cancer Task Force. This organization will be added to the donation schedule beginning with the 1999 tax return. Effective August 15, 1999.

Act 129 (HB 672) amends R.S. 47:120.35 to provide for the donation by an individual of all or any portion of his individual income tax refund to the Children's Trust Fund. This fund will be added to the donations schedule beginning with the 1999 tax return. Effective August 15, 1999.

Credits

8. Net income taxes paid to other states

A credit is allowed for taxes paid to other states. The purpose of the credit is to allow taxpayers to deduct the income tax paid to other states on income also taxed by Louisiana, so as not to subject the taxpayer to double taxation. 11. Various federal tax credits

A credit is allowed for ten percent of the amount of certain federal income tax credits. Beginning in 1975, the use of federal tax as an entry into state tax tables gave taxpayers benefit of the following credits:

- credit for the elderly
- credit for child and dependent care expenses
- investment credit
- foreign tax credit
- work incentive credit
- jobs credit
- residential energy credit

In 1980, the method was changed to use federal adjusted gross income to calculate the amount of tax due. Because the change eliminated federal tax credits, this provision was enacted. Beginning in 1986, the credit was limited to \$25. The purpose of this credit is to allow some of the federal credits to also be applied against the state tax liability.

The credit percentages allowed for subsequent years are as follows: 40 percent for FYE 6-94; 60 percent for FYE 6-95; 80 percent for FYE 6-96; and 100 percent for ad valorem taxes paid after July 1, 1996.

Act 59 of the 1994 Third Extraordinary Session added R.S. 47:6006.1 to provide for a refundable tax credit against income and corporation franchise taxes for ad valorem taxes paid on vessels in Outer Continental Shelf Lands Act Waters. Also, Act 28 of the 1994 Regular Session amended R.S. 47:6006 to provide that this credit is not allowed for ad valorem taxes that have been collected from the persons to whom the inventory has been sold. Inheritance Tax

Introduction

Louisiana became the second state to adopt a death duty in 1828 when Act 95 was enacted imposing an inheritance tax. The present statute, Act 127 of 1921, authorized by the 1921 Louisiana Constitution (now Article 7, Section 4, of the 1974 Constitution) provides for graduated, classified or progressive taxes on inheritances, legacies, and gifts made in contemplation of death subject to certain limits and exemptions. Exemptions are provided for under R.S. 47:2402, while exclusions are found under R.S. 47:2404(C).

The Department of Revenue assumed responsibility for the administration and collection of the tax on January 1, 1974. Prior to that time, inheritance taxes were administered and collected on a local basis. In each parish, except Orleans, the Sheriff was designated as the ex-officio inheritance tax collector for the State and an attorney was appointed to assist him. In Orleans Parish, the Clerk of Court was the inheritance tax collector.

Acts 1982, No. 874 provided for the annual increase in the value of the inheritance, legacy, donation or gift made in contemplation of death to direct descendants by blood or affinity, ascendants, or surviving spouse for deaths that would be exempt from taxation. By 1987, the value to be excluded from taxation for direct descendants by blood or affinity, ascendants or surviving spouse was \$25,000. This same act also provided that for deaths occurring during calendar year 1992 and thereafter, the total amount or value of the inheritance, legacy, donation or gift in contemplation of death to a surviving spouse was exempt from taxation.

Acts 1997, No. 818 provided for the phase out of the inheritance tax over seven years. Effective July 1, 1998, the tax rates are reduced as follows: (1) for deaths occurring after June 30, 1998, and before July 1, 2001, the tax rates are reduced by 18 percent; (2) for deaths oc-

curing after June 30, 2001, and before July 1, 2002, the tax rates are reduced by 40 percent; (3) for deaths occurring after June 30, 2002, and before July 1, 2003, the tax rates are reduced by 60 percent; (4) for deaths occurring after June 30, 2003, the tax rates are reduced by 80 percent; and (5) for deaths occurring after June 30, 2004, no tax shall be levied when a judgment of possession is rendered or when a succession is judicially opened no later than the last day of the ninth month following the death of a decedent.

Tax Base

The tax base for Louisiana inheritance tax consists of all property of every nature and kind included or embraced in every inheritance, legacy, or donation or gift made in contemplation of death. With regard to residents, the tax base includes all immovable property located within Louisiana and all movable property, tangible or intangible, wherever situated. With regard to nonresidents, the tax base includes immovable property located within Louisiana and only tangible movable property domiciled in Louisiana.

Tax Rates

The tax rates are graduated and progressive based upon the relationship of heirs and legatees to the decedent. The classifications of heirs and legatees and the respective tax rates are as follows:

Classification of Heirs/Legatees

Direct descendants by blood or affinity, ascendants, or surviving spouse

Tax Rate: 2% of the actual value of the first \$20,000 taxable, plus 3% of the actual value in excess of \$20,000

Inheritance Tax

Collaterals (including brothers or sisters by affinity and their descendants)

Tax Rate: 5% of the actual value on the first \$20,000 taxable, plus 7% of the actual value in excess of \$20,000

Strangers or nonrelated persons

Tax Rate: 5% of the actual value of the first \$5,000 taxable, plus 10% of the actual value in excess of \$5,000

Effective July 1, 1998, the above tax rates are reduced as follows:

1. for deaths occurring after June 30, 1998, and before July 1, 2001, the tax rates are reduced by 18 percent;
2. for deaths occurring after June 30, 2001, and before July 1, 2002, the tax rates are reduced by 40 percent;
3. for deaths occurring after June 30, 2002, and before July 1, 2003, the tax rates are reduced by 60 percent;
4. for deaths occurring after June 30, 2003, the tax rates are reduced by 80 percent; and,
5. for deaths occurring after June 30, 2004, no tax shall be levied when a judgment of possession is rendered or when a succession is judicially opened no later than the last day of the ninth month following the death of a decedent.

Types of Tax Exemptions

The Louisiana inheritance tax law provides for tax exemptions under R.S. 47:2402 and exclusions under R.S. 47:2404(C). Exemptions are those amounts or values of an inheritance, legacy, donation, or gift made in contemplation of death that are included in the tax base, but have been specifically exempted from the tax imposed. Exclusions are items of property that have been excluded from the tax base.

Significant Changes Fiscal Year 1999-2000

The reduction to the overall inheritance tax, which became effective after June 30, 1998, will have a major impact upon the fiscal effect of the exemptions and the exclusion. Since the inheritance tax is being phased out, the fiscal impact of the exclusion and exemptions will also be phased out. The phase out of the tax is discussed elsewhere on this page.

Liquors-Alcoholic Beverage Taxes

Introduction

The alcoholic beverage tax law encompasses taxation on two categories of alcoholic beverages: (a) beverages of low-alcoholic content that are defined as alcoholic beverages containing not more than six percent alcohol by volume, and (b) beverages of high-alcoholic content that are defined as alcoholic beverages containing more than six percent alcohol by volume. An alcoholic beverage tax of \$1 per 31 gallon barrel was first imposed on malt beverages, which included beer, port, ale, and fruit-juice wines, by Act 2 of the Extraordinary Session of 1933. Act 15 of the 1934 Regular Session imposed a tax on liquor at 50¢ per wine gallon, on sparkling wines at 50¢ per wine gallon, on still wines of less than 14 percent by volume at 5¢ per wine gallon, on still wines of between 14 percent and 24 percent by volume at 10¢ per wine gallon, and on beer at \$1.50 per 31-gallon barrel. Tax stamps were used to indicate that the appropriate taxes had been paid. A discount of five percent of the face value of the stamps purchased in lots of \$100 or more was allowed to dealers.

While the provisions related to the tax stamps were repealed in 1964, the tax rates were increased numerous times during the intervening years. Increases occurred in 1935, 1938, 1940, 1942, 1944, 1948, 1956, 1970, and lastly, in 1978, when Act 441 established the current tax rates.

The Louisiana Native Wine Law was enacted by Act 736 of the 1990 Regular Legislative Session. Rates for native wines were set the same as rates for other wines.

The alcoholic beverage taxes are collected from the first handlers in Louisiana, usually bonded wholesale dealers. The bond required, for tax purposes, of manufacturers or wholesalers of alcoholic beverages is a minimum of \$10,000 for each type of permit held. The bond for manufacturers or wholesalers of native wines is \$5,000.

Types of Tax Exemptions

For alcoholic beverage tax purposes, tax exemptions are exemptions, refund/credits, and discounts. Exemptions are items that were included in the tax base, but have been specifically exempted. Refund/credits are items that taxes were paid on initially, but the taxpayer has a right to request a refund or a credit. Discounts are a proportionate deduction from the gross amount reported. The tax exemptions for beer have been separated from those for liquor and wine.

There are several statutory tax exemptions that are also prohibited from taxation by federal laws. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.

Natural Resources - Severance Tax

Introduction

A severance tax is levied upon all natural resources severed from the soil or water, including all forms of timber, including pulp woods, and turpentine and other forest products; minerals such as oil, gas, natural gasoline, distillate, condensate, casinghead gasoline, sulphur, salt, coal, lignite, and ores; also marble, stone, gravel, sand, shells, and other natural deposits; and the salt content in brine.

Oil and gas collections account for almost 92 percent of all severance tax collections. Because of the significant revenues generated and the fact that only one minor exemption affects the other natural resources, the focus of this section is centered on the oil and gas taxes.

The first tax, based on the severance of oil and gas, was imposed in 1910. This tax was levied as an occupational license tax at a rate of 1/5¢ per 10,000 cubic feet or 10 mcf for gas, and 2/5¢ per barrel of oil.

Act 140 of 1922 carried into effect a 1921 constitutional authority for a severance tax. There have been many changes in the tax rates since 1910, including fluctuations from a volumetric to a percentage-of-value based tax. The changes are listed below in chronological order.

1910	Oil 2/5¢ per barrel; gas 1/5¢ per 10 MCF
1912	Oil and gas; 0.5% of gross value less royalty interest
1920	Oil and gas; 2% of gross value
1922	Oil and gas; 3% of gross market value
1928	Oil 4-11¢ per barrel depending on gravity; gas 1/5¢ per MCF
1936	Gas 3/10¢ per MCF
1940	Oil 6-11¢ per barrel depending on gravity; condensate 11¢ per barrel
1948	Oil 18-26¢ per barrel depending on gravity; condensate 20¢ per barrel
1958	Gas 2.3¢ per MCF

1972	Gas 3.3¢ per MCF
1974	Oil and condensate 12.5% of value; gas 7¢ per MCF
7/90	Gas 10¢ per MCF, indexed annually
7/91	Gas 9¢ per MCF, indexed annually
7/92	Gas 7¢ per MCF, indexed annually
7/93	Gas 7.5¢ per MCF, indexed annually
7/94	Gas 8.7¢ per MCF, indexed annually
7/95	Gas 7¢ per MCF, indexed annually
7/96	Gas 7.7¢ per MCF, indexed annually
7/97	Gas 10.1¢ per MCF, indexed annually
7/98	Gas 9.3¢ per MCF, indexed annually
7/99	Gas 7.8¢ per MCF, indexed annually

Tax Base

The tax is imposed upon severance of the oil and gas from the soil or water and is paid by the natural resource owners. The state of Louisiana has over 30,000 producing oil and gas wells.

Tax Rate

The capable tax rate for oil and condensate is 12.5 percent of value and accounts for over 98 percent of the oil and condensate tax collections. There is also an incapable rate and a stripper rate for low-producing oil wells. The capable rate for gas, presently 7.8¢ per MCF, is responsible for over 99 percent of total gas tax collections. There are also reduced tax rates for low-pressure oil-well gas and incapable gas-well gas. The current severance tax rates are:

Type	Rate

Capable rate	12.5% of value R.S. 47:633(7)(a)
Incapable rate	6.25% of value R.S. 47:633(7)(b)

Types of Tax Exemptions

Severance tax exemptions for oil, gas, and minerals are in the form of exclusions, exemptions, special rates, deductions, and suspensions. Exclusions are by statute and refer to specific categories of natural gas upon which the tax shall not accrue. Exemptions and suspensions are also statutorily mandated and exempt or suspend the tax on oil or gas severed from wells that meet certain criteria. Special rates reduce the tax on natural resources severed from wells that qualify under specified criteria. Deductions are defined as a credit against or a reduction to the taxable base.

Significant Changes Fiscal Year 1999-2000

The gas severance rate decreased from 9.34¢ to 7.8¢ per MCF on July 1, 1999, as a result of Act 387 of 1990. This Act set in place an indexing mechanism to annually adjust the gas severance tax rate.

During the 1999 Legislative Session no significant severance tax changes were enacted.

Natural gas exclusions

1. Injection

An exclusion is allowed for the injection of gas into producing reservoirs. The gas injected maintains reservoir pressure and enhances the recovery of hydrocarbons. This gas will eventually be reproduced and sold, and at that time the tax will be paid. This is really more of a deferred payment than an exclusion. The purpose of this exclusion is to promote secondary recovery and repressurization programs.

Statutory Citation: R.S. 47:633(9)(e)(i)
Origin: Acts 1940, No. 145
Effective Date: 1940

Beneficiaries: Anyone in industry undertaking a repressurization or secondary recovery project.

Administration: The purpose of this exclusion is achieved in a fiscally effective manner.

\$580,000	\$580,000

2. Produced outside the state of Louisiana

An exclusion is allowed for gas produced outside the state and transported into Louisiana to be injected. The purpose of this exclusion is to clarify that natural gas severed outside the state is not taxable.

Statutory Citation: R.S. 47:633(9)(e)(ii)
Origin: Acts 1960, No. 2
Effective Date: 1960

Beneficiaries: The volume of gas imported is simply too small to benefit anyone. The only activity is around the three-mile offshore boundary separating state and federal leases.

Administration: The purpose of this exclusion is achieved in a fiscally effective manner.

Estimated Fiscal Effect: Negligible; less than \$10,000 for FY 1999-00 and FY 2000-01.

Natural Resources - Severance Tax

3. Flared or vented

An exclusion is allowed for gas flared or vented to the atmosphere. Gas is normally vented or flared when testing, waiting on sales line, or when produced in noncommercial quantities. The purpose of this exclusion is to provide financial relief to producers of natural and casinghead gas.

Statutory Citation: R.S. 47:633(9)(e)(v)

Payout of well cost shall be the cost of completing the well to the start of production. The purpose of this tax suspension is to encourage the drilling of horizontal wells.

Statutory Citation: R.S. 47:633(7)(c)(iii)
Origin: Acts 1994, No. 2
Effective Date: August 1, 1994

Beneficiaries: Any producer who successfully completes or recompletes a well horizontally.

8. Inactive wells

Gas wells returned to service after being inactive for two or more years or having 30 days or less of production for the past two years are exempt from severance tax for a period of five years. The purpose of this tax suspension is to encourage producers to restore inactive gas wells with remaining potential to active status. Similar legislation in Texas was very effective. Act 16 of the 1996 Regular Legislative Session extended this exemption until September 30, 1998, and Act 7 of the 1998 Regular Legislative Session extended it until September 30, 2000.

Origin: Acts 1958, Ex. Sess., No. 2
Effective Date: 1958

Beneficiaries: The intent of the reduced rate is to encourage small independent operators to continue production on low-producing wells. Major oil companies also benefit from this special reduced rate.

13. Contract gas at less than 52¢ per MCF

Gas sold under a contract in existence prior to July 1, 1970, and sold at a rate of less than 52¢ per MCF is eligible for a special reduced tax rate of 7¢ per MCF provided that a copy of the contract is filed with the Secretary no later than 30 days after July 1, 1990. The purpose of the special rate was to provide financial assistance to one major oil company who had a large-volume contract negotiated prior to July 1, 1970, and sold at a rate of 52¢ per MCF.

Statutory Citation: R.S. 47:633.1(C)
Origin: Acts 1990, No. 387
Effective Date: July 1, 1990

Beneficiaries: Natural gas producers with qualifying contracts benefit from this special rate in years when the tax rate exceeds 7¢. This reduced rate has not been claimed since June 1993. This may indicate that the contracts have been renegotiated and no longer qualify for the special rate.

Oil deduction

14. Trucking, barging, and pipeline fees

Oil and condensate are taxable at the higher of 12.5 percent of the gross receipts less charges for trucking, barging, and pipeline fees or the posted field price. The Department's regulation, LAC 61:1.2903, allows producers transporting through their own facilities a 25¢ per barrel deduction; those with third-party transportation may deduct 25¢ per barrel or the actual amount charged. The purpose of the regulation is to allow a standard 25¢ per barrel deduction for all producers.

16. Inactive wells

Oil wells returned to service after being inactive for two or more years or having 30 days or less of production for the past two years are exempt from severance tax for a period of five years. The purpose of this legislation is to encourage producers to restore inactive oil wells with remaining potential to active status. Similar legislation in Texas was very effective. Act 16 of the 1996 Regular Legislative Session extended this exemption until June 30, 1998 and Act 7 of the 1998 Regular Legislative Session extended it until June 30, 2000.

Oil and gas incentive

25. Produced water injection incentive

Petroleum Products Taxes

Introduction

A tax on gasoline and motor fuels was first levied in the 1921 Louisiana Constitution at the rate of 1¢ per gallon. Special fuels were first taxed at the rate of 7¢ per gallon under a **Use Fuel Tax** as levied by Act 244 of 1940. This act also required fuel permits. Various amendments through the years set the rates as follows:

1921	Gasoline tax first levied at 1¢ per gallon
1924	Gasoline at 2¢ per gallon
1928	Gasoline at 4¢ per gallon
1930	Gasoline at 5¢ per gallon
1936	Gasoline at 7¢ per gallon
1940	Special fuels tax first levied at 7¢ per gallon
1948	Gasoline and special fuels at 9¢ per gallon
1952	Gasoline and special fuels at 7¢ per gallon
1968	Gasoline and special fuels at 8¢ per gallon
1984	Gasoline and special fuels at 16¢ per gallon
1990	Gasoline and special fuels at 20¢ per gallon

Act 16 of the First Extraordinary Session of 1989 increased the total tax on gasoline, motor fuels, and special fuels to the current 20¢ per gallon, not by increasing the 16¢ per gallon rate imposed by R.S. 47:711 and R.S. 47:802, but by levying an additional 4¢ under a new part titled **Transportation Infrastructure Model for Economic Development (TIMED)**. The money generated by this levy, which was effective January 1, 1990, was specifically dedicated. By the same legislation, the Transportation Trust Fund was created wherein the 16¢ per gallon tax collections would eventually be deposited.

The gasoline tax is collectible from the dealers who first handle, sell, distribute, use, consume, etc., the gasoline and motor fuel in Louisiana. The term **dealer** includes those who produce, refine, manufacture, blend, or import the fuel. The tax is collectible from job-

bers under certain conditions. Both dealers and jobbers are required to be bonded.

The special fuel tax is imposed on all special fuels used in vehicles licensed or required to be licensed for highway use except liquefied petroleum gas or compressed natural gas. The tax is collected or paid by suppliers or any interstate user on special fuels imported into this state and by bulk users when fuel purchased tax-free is removed from storage and consumed in the operation of motor vehicles in the state. Owners or operators of motor vehicles that use liquefied petroleum gas or compressed natural gas pay an annual flat rate or tax based on usage depending on weight of the vehicle. Suppliers are required to be bonded.

Tax Rate

Gasoline and special fuels - 20¢ per gallon; owners/operators of motor vehicles that use liquefied petroleum gas or compressed natural gas with a vehicle weight of 10,000 pounds or less can pay an annual flat rate of \$150 or 16¢ per gallon of fuel used, assuming 12 miles per gallon, whichever is less; vehicles weighing more than 10,000 pounds pay 16¢ per gallon of fuel used, but not less than the \$150 annual flat rate.

Types of Tax Exemptions

Petroleum products tax exemptions are in the form of exemptions, refunds, and discounts. Exemptions are items that were included in the tax base, but have been specifically exempted statutorily. Refunds are a restitution of taxes paid. Discounts are a proportionate deduction from the amounts reported.

There are two statutory tax exemptions that are also prohibited from taxation by federal laws. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.

Public Utilities and Carriers Taxes Inspection and Supervision Fee

Introduction

The inspection and supervision fee was first imposed by Act 108 passed during the Extraordinary Session of 1921. This act established that each common carrier and public utility doing business in Louisiana and subject to the control and jurisdiction of the Public Service Commission would pay an annual fee for the inspection, control, and supervision of the business, service, and rates of such common carrier and public utility. The fee was set on a graduated scale, with a minimum annual fee established of \$10 not to exceed a maximum of \$500, to be due at the end of December. Changes to the fee and rate schedules occurred in 1928, 1935, 1962, 1970, and again in 1972 when a minimum annual fee of \$35 was established and the maximum amount eliminated.

The year 1985 brought forth two pieces of legislation. Act 182 changed the due date from December 31 to April 1; while Act 561 implemented a supplemental fee of 20 percent of the inspection and supervision fee payment on each gas, electric, and telephone public utility. Act 700 of 1986 changed the reporting period from annually to quarterly, adjusted the rates, and established the minimum amount to be paid at not less than \$12.50 quarterly, \$50 annually.

As a result of Section 601 of the Federal Aviation Administration Act of 1994, Act 301 of 1995 was enacted removing certain motor carriers from the jurisdiction of the Louisiana Public Service Commission thus eliminating these carriers from the imposition of the Inspection and Supervision Fee.

Transportation and Communication Utilities Tax

Introduction

A tax on transportation and communication utilities was first imposed by Act 13 of the 1934 Regular Legislative Session. The tax was levied on every person owning or operating, or owning and operating, any public utility, as defined, in this state. **Public utilities** has been defined to include railroads and railways, sleeping cars, motor bus lines, motor freight lines, express companies, boat or packet lines, and pipe lines. The basic law has remained relatively unchanged over the years with the majority of changes occurring to the definitions of the various utilities and what constitutes **gross receipts** for the respective utilities.

Act 388 of 1991 repealed the transportation and communication tax as it applied to telephone companies and at the same time the telephone companies' services became subject to sales and use tax.

Sales Tax

Introduction

Louisiana sales tax was first imposed in 1936. The original sales tax was enacted as a two percent **luxury sales tax**. It was replaced by a one percent general sales tax that was in effect between 1938 and 1940. In 1942, a one percent **war emergency tax** was enacted and set to run for a two-year period. The first permanent sales tax was enacted in 1944 at a rate of one percent (R.S. 47:302); increased to two percent in 1948 (R.S. 47:302); increased to three percent in 1970 (R.S. 47:321); and increased to a four percent rate in 1984 (R.S. 47:331).

The general sales tax rate was four percent until June 30, 1988. In 1988, the legislature created the Louisiana Recovery District and authorized the District to issue bonds to be secured through the imposition of a sales tax. The one percent general sales tax imposed under R.S. 47:321 was repealed and was replaced by the one percent Recovery District tax. Due to bonding requirements, the taxes levied by the Recovery District are not affected by tax law changes subsequent to 1988. This combination of a three percent general sales tax, along with a one percent Recovery District tax remained in effect from July 1, 1988 to September 30, 1990.

In 1990, the legislature created the Louisiana Tourism Promotion District and granted it the authority to levy a tax. On October 1, 1990, the Tourism Promotion District levied a .03 percent sales tax, and on the same date the general sales tax rate imposed under R.S. 47:331 was reduced to .97 percent totalling the same overall tax rate of one percent. The tax base is the same for the Tourism Promotion District and general sales tax. On September 30, 1996, the bonds of the Recovery District were retired and the Recovery District ceased to exist. The levy of the Recovery District was replaced with a one percent general sales tax levy under R.S. 47:321.

For the purposes of this report, the term **general sales tax** is used to reference the four percent tax imposed by both the state and the Tourism Promotion District.

Exclusions and exemptions from the sales tax have existed since the first tax levy and new exclusions and exemptions have been enacted over the years. The exemptions were effective against the total sales tax base until 1986. During the 1986 Regular Legislative Session, House Concurrent Resolution 55 was enacted, which suspended the sales tax exemptions imposed under R.S. 47:331 for the period of July 1, 1986 through June 30, 1987. As a result of the suspension, traditionally exempt items were subject to a one percent sales tax. The legislature continued the one percent suspension until July 31, 1989. Effective August 1, 1989, the suspension rate was changed to three percent through December 31, 1989; two percent from January 1, 1990 through July 9, 1990; and three percent from July 10, 1990 through June 30, 1997. From July 1, 1993 to September 30, 1996, exemptions from the one percent sales tax levied by the Louisiana Recovery District were also suspended, resulting in a four percent suspension rate.

In order to extend tax relief, the Louisiana Legislature began enacting exclusions from the tax under the definitions in R.S. 47:301, rather than the exemptions under R.S. 47:305. Some of the new exclusions replaced existing exemptions that were taxable under the suspension of exemptions. This action resulted in two statutes affecting the same subject. In 1998, duplicative exemptions were repealed leaving only the exclusion as the statutory authority. The bonds of the Recovery District were retired as of September 30, 1996, and the District ceased to exist. The levy of the District was replaced with a one percent general sales tax levy and the four percent suspension continued until June 30, 1997. From July 1, 1997 to June 30, 2000, the suspension rate is three percent.

Tax Base

The tax base consists of retail sales of tangible personal property, rental of movable property, and selected services. The tax base also includes use tax due on the cost of tangible personal property imported into this state or purchased within this state without the proper payment of sales tax.

Tax Rate

The overall rate is four percent. The tax rate prior to October 1, 1996 included a 2.97% General Sales Tax Levy, a .03% Tourism Promotional District Levy, and a 1% Louisiana Recovery District Levy. The 1% Recovery District levy was replaced with a 1% General Sales Tax Levy on October 1, 1996.

Types of Tax Exemptions

Louisiana sales tax exemptions are in the form of exclusions, exemptions, alternate reporting methods, credits, and refunds. Exclusions are items that have been excluded from the tax

base by definition. Exemptions are items that were included in the tax base, but have been specifically exempted. Alternate reporting methods allow taxpayers to report and remit taxes in a manner different from the normally required procedure. Statutorily prescribed methods of taxation are items that have statutory methods to calculate the tax. Credits are situations when the taxpayer can deduct the credit amount from the tax due and pay only the net tax due. Refunds are the result of taxes paid initially, but for which the taxpayer may be reimbursed. All tax exemptions that are the result of Louisiana tax statutes are included in this report.

There are several statutory tax exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.

Fiscal Impact

The fiscal impact shown in this budget reflects all current statutory language and is not broken down by the various levies. It also reflects the suspension of most exemptions at the rate of 4% for fiscal years 1996 and 1997 and a suspension rate of 3% for fiscal years 1998, 1999, and 2000. Fiscal year 2000-01 shows no impact for suspended exemptions.

This exclusion allows isolated or occasional sales, other than motor vehicles, that are not sold as a part of regular business activity to be tax free. This exclusion can be claimed by both businesses and individuals. The purpose of this exclusion is to allow tax-free sales between individuals who are not in the retail business and by businesses on sales outside their normal course of business.

8. Manufacturers rebates paid directly to a dealer

This exclusion allows any payments made directly between the manufacturer and a third-party dealer (not the manufacturer's customer) for the manufacturer's product for the specific purpose of reducing the sales price and which actually reduce the price as stated to the consumer for the tangible personal property to be free of sales tax. The actual sales price to be paid directly by the consumer will be subject to sales tax. Manufacturers coupons used by the consumer as part payment of the "sales price" at the time of purchase and redeemed by the dealer will remain taxable. This exclusion excludes this payment from the definition of "cost price" and "sales price." The raw material exclusion would have to be amended to define fertilizers and containers sold for resale as taxable. The purpose of this exemption is to clarify that fertilizers and containers are not taxable as a raw material.

68. Energy sources used as boiler fuel, except refinery gas

This provision allows an exemption for all energy sources to be used as boiler fuel, except refinery gas. Prior to July 1, 1996, the statute included the cost formula for the valuation of refinery gas. Act 29 of the 1996 Regular Session reenacted the statute leaving only the boiler fuel exemption and included a sunset date of June 30, 1998 for this exemption. The act also included an exclusion for use of a residual or byproduct created or derived from the processing of a raw material under R.S. 47:301(18)(d)(ii) [See number 49, Sales Tax Section]. The use of these residual or byproducts in a boiler would be excluded from the sales tax only when used by the producer. The cost formula for the valuation of refinery gas was moved to R.S. 47:301(3)(f) [See number 129, Sales Tax Section]. Act 21 of the 1998 Regular Session extended the sunset date of this exemption to June 30, 2000. The purpose of this exemption is to provide a benefit to industries utilizing boilers in their operations.

Beneficiaries: Any business that uses an energy source in a boiler fuel, except residual or byproducts or refinery gas.

Administration: The purpose of the exemption is diluted with the residue or byproduct exclusion. Any other qualifying energy source is subject to tax due to the suspension of the exemptions through June 30, 2000. Most materials used in boilers will be either excluded from tax due to the exclusion and the use of refinery gas would be fully taxable based on the valuation under cost price.

Estimated Fiscal Impact: Unable to anticipate; no data.

This exemption allows the purchase of materials, equipment, and machinery that become component parts of ships, vessels, and barges with a 50-ton and over load displacement and the sale of such qualifying ships, vessels, and barges to be exempt from sales tax. In 1982, this exemption was amended to include drilling ships and barges. This exemption also allows ships or vessels operating exclusively in foreign or interstate coastwise commerce to purchase materials and supplies, repair services, and laundry services tax free. The purpose of this exemption is to make Louisiana boat builders and boat-service businesses competitive with similar companies in other states.

Statutory Citation: R.S. 47:305.1
Origin: Acts 1959, No. 51
Effective Date: June 29, 1959

Beneficiaries: The beneficiaries of this exemption are builders of 50-ton and over ships, vessels, and barges and the owners of ships, vessels, and barges that operate in foreign or interstate commerce. Since the courts have declared that tax laws cannot discriminate against interstate commerce, the Department has been unable to enforce the restrictive ***built in Louisiana*** language contained in the statute. Consequently, out-of-state builders have also benefited from this exemption.

Administration: The courts have interpreted ***exclusively in foreign and interstate commerce*** very broadly, but have failed to provide a precise definition. This has left a question as to who qualifies for the exemption. A clear definition of ***exclusively in foreign and interstate coastwise commerce*** is needed.

This exemption originally allowed the purchase of tangible personal property within Louisiana or the importation of property for first use outside the state to be exempt from sales tax if the out-of-state location of the property was specified. In 1985, Act 631 amended the exemption to allow the stockpile of tax-free goods for use in offshore areas without identifying the final-use location. Alternate-reporting methods

123. Certain interchangeable components; optional method to determine

This alternate-reporting method allows importers or users of certain *measurement-while-drilling* equipment to store equipment in the state without paying the use tax due upon importation. Instead, taxes would be paid on 1/60 of the total material cost of all equipment stored within Louisiana each month. The purpose of this method is to offer relief from use tax on equipment stored in Louisiana, but seldom used in this state.

Statutory Citation: R.S. 47:301(3)(d)
Origin: Acts 1990, No. 719
Effective Date: July 1, 1990

Beneficiaries: Companies that use certain *measurement-while-drilling* equipment.

Administration: The purpose of the exemption is achieved in a fiscally effective manner.

Estimated Fiscal Effect

\$541,000	\$548,000

124. Helicopters leased for use in the extraction, production, or exploration for oil, gas, or other minerals

This alternate-reporting method allows the lease or rental of certain helicopters used in the extraction, production, and exploration of oil, gas, and other minerals to be considered a sale of tangible personal property with an extended period of time allowed to remit any taxes due.

Helicopters acquired through a lease, rental, lease-purchase, or similar transaction by a company involved in the extraction, production, or exploration for oil, gas, or other mineral qualify for this method. Helicopters used by companies providing service to qualifying companies also qualify for this alternate-reporting method. Qualifying companies do not pay sales tax on lease or rental payments, but remit the tax on the sales price in equal installments over the terms of the lease, rental, or lease-purchase contract.

Statutory Citation: R.S. 47:302.1
Origin: Acts 1984, No. 353
Effective Date: July 1, 1984

Administration: This provision is no longer needed as it has been superseded by the duplicate provision as of October 1, 1996.

Estimated Fiscal Effect: \$0; an exclusion by R.S. 47:301(10)(a)(iii) is currently being used to exclude use tax on property purchased for lease. (See number 22 in the Sales Tax Section.)

Sales Tax

125. Cash-basis sales tax reporting and remitting for health and fitness club membership contracts

This alternate-reporting method allows health clubs to report and remit sales taxes on a cash basis and to report the receipts net of any imputed interest or collection fees. The original effective date was 1985, but a 1987 amendment in Act 379 provided relief to health clubs that had failed to collect tax prior to September 30, 1985. The purpose of this alternate-reporting method is to relieve clubs from the taxes on unpaid membership contracts.

Statutory Citation: R.S. 47:303(F)
Origin: Acts 1985, No. 661
Amended by Acts
1987, No. 379

Effective Date: September 30, 1985

Beneficiaries: Health and fitness clubs.

Estimated Fiscal Effect: Unable to anticipate; no data.

126. Cash-basis reporting procedure for rental and lease transactions

This alternative method of tax payment allows lessors of tangible personal property to report and remit sales tax due after payment is collected rather than in the period that the rental or lease occurred. The purpose of this alternate-reporting method is to relieve lessors from the taxes on unpaid rental fees.

Statutory Citation: R.S. 47:306(A)(2)
Origin: Acts 1985, No. 867
Effective Date: July 23, 1985

Beneficiaries: The beneficiaries of this alternative method of tax payment are the lessors of the property. This method of tax payment allows the lessors to avoid the loss of sales taxes remitted on transactions that ultimately become bad debts.

Administration: The purpose of the exemption is achieved in a fiscally effective manner.

Estimated Fiscal Effect: Unable to anticipate.

Sales Tax

127. Collection from interstate and foreign transportation dealers

This alternative method of tax payment allows transportation companies operating in interstate and foreign transportation of materials to remit taxes based upon the percentage of Louisiana miles to total miles. The purpose of this alternate-reporting method is to simplify the reporting of taxes.

Statutory Citation: R.S. 47:306.1
Origin: Acts 1956, No. 438
Effective Date: August 1, 1956

Beneficiaries: Interstate and foreign transportation dealers.

Administration: The purpose of the exemption is achieved in a fiscally effective manner.

Estimated Fiscal Effect: Unable to anticipate; no data.

Statutorily prescribed methods of taxation

128. Extended time to register mobile homes

This provision allows purchasers of mobile homes, as defined by R.S. 9:1149.2(3), to extend the time to apply for a certificate of Title from five days after delivery to the twentieth day of the month following the month of delivery of the home. This allows between 20 to 50 days to apply for a title. If a mobile home is immobilized prior to registration, the mobile home is not subject to sales tax. The purpose of this provision is to allow purchasers of mobile homes more time to immobilize the mobile home.

Statutory Citation: R.S. 32:707(A)
Origin: Acts 1997, No. 272
Effective Date: July 1, 1997

Beneficiaries: The beneficiaries of this provision are purchasers of mobile homes that immobilize them at the time of purchase.

Administration: The purpose of the provision is achieved in a fiscally effective manner.

Estimated Fiscal Effect: Unable to anticipate; no data.

Sales Tax

129. "Cost price" of refinery gas

This exclusion defines the valuation of refinery gas produced, but not sold by the producer. This value is determined for each calendar year. Sales of such property are subject to tax under R.S. 47:301(13)(d). The "cost price" of refinery gas shall be the maximum of 52¢ per MCF multiplied by a fraction the numerator of which shall be the posted price for a barrel of West Texas Intermediate Crude Oil on December 1 of the preceding calendar year and the denominator of which shall be \$29. This valuation applies to both state and local governments. The valuation for calendar year 1999 is 20¢. This valuation is identical to the valuation originally set under R.S. 47:305(D)(1)(h) [See number 68, Sales Tax Section].

R.S. 47:301((13)(d)(iii))

Effective Date: July 2, 1996

Beneficiaries: Refineries producing refinery gas.

Administration: The purpose of the provision is achieved in a fiscally effective manner.

Estimated Fiscal Effect: \$0; this is a valuation formula only and not an alternative method of valuation over any other value.

130. Sales price of refinery gas and other byproducts

This exclusion defines the valuation of refinery gas and other byproducts produced as part of the manufacturing/refining process and sold to another party. This value shall be the average of the monthly spot market price per MCF of natural gas delivered into pipelines in Louisiana as reported by the Natural Gas Clearing House and determined by the Department for natural gas severance tax purposes at the time of the sale, or the price for which the property is actually sold, whichever is greater.

Statutory Citation: R.S. 47:301(13)(d)
Origin: Acts 1996, No. 29
Effective Date: July 2, 1996

Beneficiaries: Manufacturers or refineries selling refinery gas and byproducts that are produced as part of their process.

Administration: The purpose of the provision is achieved in a fiscally effective manner.

Estimated Fiscal Effect: \$0; this is a valuation method and not an alternative method of valuation over any other value.

Sales Tax

Credits

131. Vendor's compensation

This credit compensates the dealer in accounting for and remitting the sales tax. Each dealer is allowed to deduct 1.1 percent from the tax due provided the reports are submitted and paid to the Department of Revenue on a timely basis. The amount of the vendor's compensation is computed on the sales tax collections before credit is taken for taxes paid on goods for resale. Originally this provision, enacted in 1948, allowed a credit of 1.5 percent. Act 916 of 1986 reduced the credit to 1.1 percent. The credit is currently scheduled to remain at 1.1 percent until July 1, 2001. The purpose of this credit is to compensate the dealer in accounting for and remitting the sales taxes.

Sales Tax

Refunds

133. Sales tax remitted on bad debts from credit sales

This refund provision grants financial relief to vendors who remit sales taxes to the state that they are subsequently unable to collect from their customers. This statute was enacted in 1976 for credit sales of tangible personal property and was amended by Act 516 of 1985 to apply to credit sales of services, effective July 1, 1985. The sales tax bad-debt recovery provision does not include rentals and leases. The purpose of this refund was to allow taxpayers a refund of sales taxes remitted to the Department, but not collected from their customers.

Statutory Citation: R.S. 47:315
Origin: Acts 1976, No. 153
Amended by Acts
1985, No. 516
Effective Date: July 20, 1976

Beneficiaries: Vendors who have remitted the tax on credit sales of tangible personal property that ultimately was uncollectible from their customers.

Administration: The purpose of the provision is achieved in a fiscally effective manner.

Estimated Fiscal Effect: Unable to anticipate.

134. State sales tax paid on property destroyed in a natural disaster

This refund provision gives financial assistance to persons who have suffered uninsured losses in natural disasters. The sales tax paid on destroyed property can be refunded upon the filing of a proper claim. In 1972, this statute was amended by Act 592 to provide an effective date of August 17, 1969. In 1973, this statute was amended by Act 60 to the current language clarifying that the refund is based upon taxes paid by the owner on the destroyed property. The purpose of this refund is to provide financial relief to persons who have suffered uninsured losses in natural disasters.

Amended by Acts
1972, No. 592; Acts
1973, No. 60
Effective Date: August 17, 1969

Beneficiaries: Owners of property destroyed by a natural disaster in an area determined by the President of the United States to need federal assistance.

Administration: The documentation submitted for tax claims is generally incomplete; claims that appear to be reasonable and probable are honored. Under the present system, there is no correlation between need and eligibility for refunds. A better system could probably be devised for giving aid to persons adversely affected by natural disasters.

Estimated Fiscal Effect: Unable to anticipate.

135. Materials used in the construction, restoration, or renovation of housing in designated areas

This refund provision offers a financial incentive to persons who renovate, restore, or rehabilitate existing structures or who construct new housing in certain blighted areas of the state. These areas are determined by local governing authorities. The purpose of this refund provision is to encourage people to improve the conditions of the blighted areas.

Administration: The purpose of the provision is achieved in a fiscally effective manner.

Estimated Fiscal Effect: Unable to anticipate; no data. No refunds issued in previous years.

136. Purchases or leases of durable medical equipment paid by or under provisions of Medicare

This refund provision allows a person paying tax on the purchase or rental of durable medical equipment that is paid by or under the provisions of Medicare to request a refund of the state taxes paid. Most qualifying purchases are already exempted from the state sales tax under pertinent provisions of R.S. 47:305(D); however, leases are not.

Statutory Citation: R.S. 47:315.3
Origin: Acts 1994, No. 25
Effective Date: August 15, 1994

Beneficiaries: Purchasers and lessees of qualifying durable medical equipment.

Administration: The purpose of the provision is achieved in a fiscally effective manner. The Department has initiated a procedure to relieve the lessor of the property from the collection and remittance of the four percent general sales tax on the lease payments paid by Medicare. Any amounts paid directly by the lessee/patient will be fully taxable. This procedure will be used in lieu of requiring the tax to be paid initially and subsequently refunded.

Estimated Fiscal Effect: Unable to anticipate; no data.

137. Refunds of sales tax to motion-picture production companies

This refund provision offers a financial incentive for certain motion-picture production companies to film in Louisiana. The applicant must incur at least \$1 million in expenditures in Louisiana paid from a checking account in a Louisiana financial institution. The refunds are limited to producers of movies and/or commercials; sporting events or news programs do not qualify. The purpose of this refund provision is to encourage motion-picture companies to film in Louisiana.

Statutory Citation: R.S. 47:1124
Origin: Acts 1990, No. 480
Effective Date: July 18, 1990

Beneficiaries: The beneficiaries of this refund provision are motion-picture production companies that film in Louisiana. The state and local governments benefit by the economic activity that the film companies bring to an area.

Administration: The purpose of the provision is achieved in a fiscally effective manner.

Estimated Fiscal Effect: Unable to anticipate.

138. Louisiana Tax Free Shopping Program

This provision offers refunds of state and local sales taxes on certain purchases to international tourists to encourage increased tourism in Louisiana. Statutory Citation: R.S. 51:1301
Origin: Acts 1988, No. 535
Effective Date: July 8, 1988

Beneficiaries: International tourists who travel and make purchases in Louisiana and the merchants who participate in the program.

State exemptions with prohibitions on taxation

139. Sale of gasoline, gasohol, and diesel

The Louisiana Constitution prohibits the taxation of fuel that is subject to the road-use excise tax. This excludes most fuel sales, as most gasoline, gasohol, and diesel will be subject to road use tax. Gasoline, not subject to road use excise tax, is exempt from taxation of sales tax under R.S. 47:301(D)(1)(a). Gasohol, not subject to road use excise tax, is exempt from taxation under R.S.47:305.28 for gasohol produced, fermented, and distilled in Louisiana. The fiscal impact of the constitutional exclusion is shown in this section. The purpose of this prohibition is to give a tax-break to consumers.

Statutory Citation: Constitution of the State of Louisiana Article VII, Section 27

Origin: Constitutional Amendment

Effective Date: January 1, 1990

Beneficiaries: Consumers of road use gasoline and gasohol.

Administration: The purpose of this prohibition is achieved in a fiscally effective manner.

140. Purchases made with food stamps and WIC vouchers

This exemption allows tax-free purchases of **eligible food items** if purchased with USDA food stamps or Women, Infants, and Children's (WIC) vouchers. The federal government issues food stamps and WIC vouchers to qualified participants to purchase **eligible food items**. States are not allowed to tax these purchases as a requirement for receiving federal funding for the food stamp and WIC programs. Repeal of this exemption would cost the state federal food stamp funding. The purpose of this exemption is to comply with the federal government's restrictions.

Origin: Acts 1986, No. 1028

Effective Date: October 1, 1987

Beneficiaries: Purchasers using food stamps and WIC vouchers.

Administration: The purpose of the exemption is achieved in a fiscally effective manner.

Sales Tax

141. Credit for sales and use taxes paid to other states on property imported into Louisiana

This credit allows a person or company to reduce any use tax due by the equivalent sales/use tax lawfully paid to another qualified state. In order to qualify, the other state must allow a similar credit for Louisiana taxes and the tax charged must be similar in nature. The state of Louisiana has entered into agreements with other states to allow similar credits for Louisiana residents. The purpose of this provision is to reciprocate for the credit allowed by other states.

Statutory Citation: R.S. 47:303(A)
Origin: Acts 1964, No. 171
Effective Date: July 29, 1964

Beneficiaries: Persons and companies importing property into this state.

Administration: The purpose of the provision is achieved in a fiscally effective manner.

142. Credit for use tax paid on automobiles imported by certain members of the armed services

This provision allows a credit to Louisiana residents, who have served in the armed services for two years or more, for sales taxes paid on automobiles. This credit will be honored for taxes paid to any other state. The purpose of this credit is to provide financial assistance to members of the armed services.

Statutory Citation: R.S. 47:303(A)
Origin: Acts 1965, No. 122
Effective Date: July 28, 1965

Beneficiaries: Louisiana residents who serve in the armed services.

Administration: The purpose of the provision is achieved in a fiscally effective manner.

Estimated Fiscal Effect: The fiscal effect is included under number 141, Sales Tax Section.

Sales Tax

143. Use of vehicles in Louisiana by active military personnel

This exemption allows active military personnel to transfer motor vehicles into Louisiana exempt from sales tax under the following conditions:

- the personnel is on active duty in Louisiana;
- sales tax was collected in the state that the vehicle was purchased; and,
- the purchaser was a resident or stationed on military duty in the state that the vehicle was purchased.

The vehicle becomes subject to Louisiana sales tax when the person leaves active military service. A credit is allowed for taxes paid to other states under R.S. 47:303(A). This statute is similar to provisions of the ***Federal Soldiers and Sailors Civil Relief Act of 1940*** (50 U.S.C. 574). Because of the provisions of the federal act, the credit allowed for taxes paid other states is not expected to create an additional loss of tax revenues. The purpose of this provision is to reciprocate for the credit allowed by other states.

Statutory Citation: R.S. 47:305.48

Origin: Acts 1989, No. 435

Effective Date: September 3, 1989

Beneficiaries: Active military personnel.

Administration: The purpose of the exemption is achieved in a fiscally effective manner.

Estimated Fiscal Effect: The fiscal effect is included under number 141, Sales Tax Section.

Tax Exemption Contracts

Introduction

The Board of Commerce and Industry, under the Department of Economic Development, is authorized to grant certain tax exemptions and incentive payments to qualifying businesses. Depending on the legislative intent, businesses must meet specific criteria to be eligible for the various tax exemption and incentive contracts. Once certified by the Board and approved by the Governor, the exemption and incentive contracts are administered by the Department of Revenue. The purpose of these tax exemption and incentive contracts is to encourage specific economic development.

Types of Tax Exemptions

Tax exemptions can be in the form of sales and use tax rebates and exemptions and credits for income taxes, corporation franchise tax, and other taxes imposed by the state.

1. Tax equalization

The Board of Commerce and Industry, with the approval of the Governor, may grant companies who locate new manufacturing establishments, new headquarters, or new warehouse and distribution establishments, various state tax exemptions to equalize the taxes paid to Louisiana with the taxes that would be paid to the other state where the company is located or is contemplating locating.

The statute, enacted in 1966, was amended in 1985 to allow exemptions for location of new corporate headquarters; in 1987 to include new warehousing and distribution establishments; in 1993 to allow any business entity, not just corporations, to qualify for exemptions and to allow exemptions for location of new headquarters; and again in 1998 by Act 32 to provide Louisiana businesses a right of first refusal as a condition for business and manufacturing establishments to receive certain tax exemptions; by Act 60 to replace set-aside provisions with provisions relating to the economically disadvantaged business, to change the priority for state tax exemptions, and to change the provisions for the review of exemption applications; and by Act 72 to allow manufacturing establishments that employ 175 employees and have already entered into a 10-year tax exemption contract to apply for an additional 10-year contract if they move their headquarter into Louisiana between July 1, 1998 and June 30, 2000 and meet certain other conditions not just corporate headquarters. Currently, tax exemption contracts can be granted as follows:

- rebates of sales and use taxes on purchases and leases of, and repairs to, machinery and equipment used in the on-site operation of the new headquarters facility;
- rebates of sales and use taxes on purchases of tangible personal property used in the construction of the new headquarters facility;

Tax Exemption Contracts

1. Tax equalization (*continued*)

- individual income tax credits;
- corporation franchise tax exemptions or credits;
- corporation income tax exemptions or credits; and,
- exemptions or credits for any other taxes imposed by the state that such businesses are subject.

The exemption contract may be granted for a period not to exceed five years and renewed for periods of up to five additional years, provided that the total number of years of the contract does not exceed ten years. The purpose of this tax exemption contract is to induce new businesses to locate in Louisiana.

Statutory Citation: R.S. 47:3201-3205
Origin: Acts 1989, No. 491
Amended by Acts
1990, No. 783; Acts
1993, No. 400; Acts
1998, Nos. 32, 60,
and 72.

Effective Date: September 3, 1989

Beneficiaries: The companies that locate new manufacturing establishments, new headquarters, and new warehouse and distribution establishments in the state benefit from these exemptions. The people of the state benefit by the employment, production, and income from these new establishments.

Administration: These tax exemption contracts are administered in a fiscally effective manner.

Estimated Fiscal Effect: We are unable to predict the future fiscal effect because the Department does not have data on approved or pending contracts. Corporation income tax credits of \$4,312,789 were granted during fiscal year 1998-99.

2. Manufacturing establishments

The Board of Commerce and Industry, with the approval of the Governor and the Legislative Budget Committee, can grant tax exemption contracts as follows:

- rebates of state sales and use taxes on materials, supplies, machinery, and equipment used by the business or in the manufacturing process;
- rebates of state sales and use taxes on any other goods and services used or consumed by the business;
- corporation franchise tax exemptions and credits;
- corporation income tax exemptions and credits; and,
- exemptions and credits for any other taxes imposed by the state.

The total amount of tax exemptions for any fiscal year must not exceed four percent of the corporate franchise, corporate income, and sales and use taxes collected in the previous year. The exemption contract may be granted for a period not to exceed five years and renewed for periods of up to five additional years, provided that the total number of years of the contract does not exceed ten years. The purpose of these tax exemption contracts is to encourage industrial development in the state and to encourage the establishment of new and expanded manufacturing industries. R.S. 47:4304(E)(1) was enacted during the 1993 Regular Session of the Louisiana Legislature to require applicants to award ten percent of their purchases of goods and services to minority-owned businesses and R.S. 47:4304(C) was amended in the 1998 Regular Legislative Session by Act 32 to provide Louisiana businesses a right of first refusal as a condition for business and manufacturing establishments to receive certain tax exemptions.

3. Enterprise zones

The Board of Commerce and Industry, after consultation with the Secretaries of the Department of Economic Development and the Department of Revenue, and with the approval of the Governor, may grant certain tax credits and exemptions to businesses who locate in areas designated as **enterprise zones**. A new-jobs credit of \$2,500 (\$5,000 for the aviation and aerospace industry) per qualifying new employee can be applied against corporation franchise and state income taxes. This exemption contract may be granted for a period not to exceed five years and renewed for periods up to five additional years, provided that the total number of years of the exemption does not exceed ten years. Tax exemption contracts can be granted as follows:

- rebates of state and local sales and use taxes on the purchases of material used in building construction or improvement and sales tax on machinery and equipment used in that enterprise;
- jobs credit against corporation franchise tax; and,
- jobs credit against state income tax.

Acts 1999, No. 977 added R.S. 51:1787(H), pertaining to tax exemption contract requests for rebates of local sales tax, to require that an endorsement resolution approved by the local taxing authority be submitted along with the request. In addition, provisions were added to allow for enterprise zone tax exemption contracts, under certain circumstances, for businesses located outside enterprise zones or economic development zones; to require businesses to make a request for sales and use tax credits and rebates before beginning construction or installing machinery or equipment; and to allow tax exemption contracts if a business creates a minimum of the lesser of five new permanent jobs within the first two years of the contract period or a minimum number of new jobs equal to 10 percent of the existing employees within the first year of the contract period.

The people living in these **enterprise zones** benefit from the employment, production, and income from these establishments.

Administration: These contracts are administered in a fiscally effective manner.

Estimated Fiscal Effect: We are unable to predict the future fiscal effect because the Department does not have data on approved or pending contracts. An analysis of the sales tax rebates and income and corporation franchise tax credits and exemptions for FY 1998-99 is as follows:

- corporation income tax exemptions;
- exemptions from any other taxes imposed by the state;
- rebates of sales and use taxes on machinery, equipment, materials, and building supplies; and,

Tax Exemption Contracts

4. Research and development parks (continued)

Beneficiaries: Biomedical research and development parks and university-related research and development parks that meet the qualifying criteria will benefit from these exemptions. The people of the state should benefit through improved health care and improved economic conditions and the creation of jobs.

Administration: These tax exemption contracts are administered in a fiscally effective manner.

Estimated Fiscal Effect: We are unable to predict the future fiscal effect because the Department does not have data on approved or pending contracts. No tax exemptions have been granted thus far.

5. Quality jobs program

The Board of Commerce and Industry, after consulting with the secretaries of the Department of Labor and the Department of Revenue, and with the approval of the Governor, may enter into contracts with qualifying basic industry establishments to grant tax credits to promote economic development and the creation of new jobs. The Louisiana Quality Jobs Program Act was amended by Act 39 of the First Extraordinary Session of 1996 and the incentive payment was changed to a refundable tax credit and by Act 36 of the 1998 Regular Legislative Session to extend the application deadline from January 1, 1999 to January 1, 2001.

To qualify for the tax credits, the basic industry establishment must meet the following criteria:

- offer a basic health benefit plan to individuals employed in new direct jobs in the state;
- have a projected annual gross payroll for new direct jobs equal or greater than \$1 million within three years of the anticipated date that the establishments may enter into a contract with the Department of Economic Development; and,
- at least 80 percent or more of the establishment's full-time employees, working an average of 25 or more hours per week in new direct jobs.

The amount of the credit is equal to the net benefit rate multiplied by the gross payroll of new direct benefit rate multiplied by the gross payroll of new direct jobs and is applicable to the tax periods provided for in the contract. The Department of Economic Development establishes the net benefit rate based on a cost-benefit analysis.

Tax Exemption Contracts

5. Quality jobs program (*continued*)

The tax credit can be taken against the corporation and personal income taxes and corporation franchise tax, and is allocated to the shareholders or partners for partnerships, limited liability companies, or S corporations.

Establishments that receive the new jobs tax credits are not eligible to receive certain other tax credits or exemptions.

The tax credit contracts can be for a period of up to five years and can be renewed for five additional years. No new or renewal applications to receive incentive tax credits may be approved on or after January 1, 2001. However, an establishment which had been approved prior to January 1, 2001, may continue to receive tax credits as long as the establishment retains eligibility.

Tobacco Tax

Introduction

A tobacco tax was first levied in 1926, by Act 197 for the benefit of public schools. Retail dealers were taxed at the rate of 1¢ per 10¢ of the retail selling price of cigarettes, smoking and chewing tobacco, cigars, cheroots, and snuff. The tax was effective October 1, 1926, for a period of four years.

Act 4 of 1932 levied a new tax on sales of cigars, cigarettes, and smoking tobacco effective September 1, 1932. The cigarette rate was based on each cigarette sold. Cigars were taxed on weight and price per 1,000 and the tax ranged from 75¢ to \$13.50 per 1,000. Smoking tobacco was taxed at 1¢ for each 5¢ of retail selling price. The tax was evidenced by tax stamps supplied by the state and applied by the tobacco dealers who were allowed a discount when purchasing stamps in quantities not less than \$100 face value.

The tax rates on cigarettes increased over the years as follows:

1932	Levied at 1/5¢ per cigarette (4¢ per 20 pack)
1942	Increased by 1/20¢ per cigarette (5¢ per 20 pack)
1948	Increased to 2/5¢ per cigarette (8¢ per 20 pack)
1970	Increased to 11/20¢ per cigarette (11¢ per 20 pack)
1984	Increased to 16/20¢ per cigarette (16¢ per 20 pack)
1990	Increased to 1¢ per cigarette (20¢ per 20 pack)

The tax rates on cigars and smoking tobacco changed in 1942 and 1948, and were eventually set at the current rates in 1974 by Act 413, effective January 1, 1975.

The discount from the face value of the tax stamp also changed from the original ten percent in 1932 to six percent in 1942; seven percent in 1944; nine percent in 1948; to the current six percent in 1972.

The tobacco tax is currently levied on tobacco products and collected from the dealer who first sells, uses, consumes, handles, or distributes the products within the state. Tax stamps indicate the payment of tax on cigarettes and can only be purchased from the Department by wholesale tobacco dealers who are required to post a bond.

- Smoking tobacco—33% of the manufacturer's invoice price.

Types of Tax Exemptions

Tobacco tax exemptions are in the form of discounts, exemptions, and refunds. Discounts are a proportionate deduction from the gross amount reported. Exemptions are items included in the tax base, but specifically exempted by statute. Refunds are restitution of taxes paid.

There are two statutory tax exemptions that are also prohibited from taxation by federal laws. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.
